## Imprisoned in the Golden City

Dave Jackson 1993-04-01

Thrilling adventure stories introducing young readers (ages 8-2) to Christian heroes of the past. The two young Burmese girls had dreaded leaving their father, but he told them that the only safe thing was for the two of them to go live with the American missionaries, Adoniram and Ann Judson. May-Lo and Len-Lay really aren't sure what the danger is, and they don't know what to believe about their

American foster parents. Could the accusations that the missionaries were English spies be true? When the Judsons leave the city of Rangoon to establish a mission work in Ava, the Golden City, the girls are taken along on the dangerous river trip that will separate them from their father by 350 miles. Will they ever see him again? Will they even make it to their destination? How will the emperor of Burma respond to Mr. Judson's petitions to give religious freedom to Christian converts? Their

arrival is followed by eventual disaster. When the British attack the Burmese, all the white foreigners, including Adoniram Judson, are hauled off to the terrible Death Prison. Every clue indicates that the Judsons are spies, and a Burmese-English boy named Myat Rodgers is determined to prove their guilt. Should the girls tell the authorities what they know? Or will they all end up in the Death Prison? Without their father's help whom could they trust?

Lemon-Aid New Cars and Trucks 2012 Phil Edmonston  
2011-01-01 Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling

depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago You can save \$2,000 by cutting freight fees and "administrative" charges Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki Lester Beall R. Market Forces Richard K.

Morgan 2005-03-01 From the award-winning author of *Altered Carbon* and *Broken Angels*—a turbocharged new thriller set in a world where killers are stars, media is mass entertainment, and freedom is a dangerous proposition . . . A coup in Cambodia. Guns to Guatemala. For the men and women of Shorn Associates, opportunity is calling. In the superheated global village of the near future, big money is made by finding the right little war and supporting one side

against the other—in exchange for a share of the spoils. To succeed, Shorn uses a new kind of corporate gladiator: sharp-suited, hard-driving gunslingers who operate armored vehicles and follow a Samurai code. And Chris Faulkner is just the man for the job. He fought his way out of London's zone of destitution. And his kills are making him famous. But unlike his best friend and competitor at Shorn, Faulkner has a side that outsiders cannot see: the side his wife is trying to salvage, that another woman—a porn star turned TV news reporter—is trying to exploit. Steeped in blood, eyed by common criminals looking for a shot at fame, Faulkner is living on borrowed time. Until he's given one last shot at getting out alive. . . .

confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz - rich cars, poor quality. There's only one Saturn you should buy. Toyota - enough apologies: "when you mess up, 'fess up."

**Cokie** Steven V. Roberts  
2021-11-02 The extraordinary life and legacy of legendary journalist Cokie Roberts—a trailblazer for women—remembered by her friends and family. Through her visibility and celebrity, Cokie Roberts was an inspiration and a role model for innumerable women and girls. A fixture on national television and radio for more than 40 years, she also wrote five bestselling books focusing on the role of women in American history. She was portrayed on Saturday Night Live, name checked on the West Wing, and featured on magazine covers. She joked with Jay Leno, balanced a pencil on her nose for David Letterman, and was the answer to numerous crossword puzzle clues. Many dogs, and at least one dairy cow, were named for

her. When the legendary 1980s Spy Magazine ran a diagram documenting all her connections with the headline “Cokie Roberts - Moderately Well-Known Broadcast Journalist or Center of the Universe?” they were only half-joking. Cokie had many roles in her lifetime: Daughter. Wife. Mother. Journalist. Advocate. Historian. Reflecting on her life, those closest to her remember her impressive mind, impish wit, infectious laugh, and the tenacity that sent her career skyrocketing through glass ceilings at NPR and ABC. They marvel at how she often put others before herself and cared deeply about the world around her. When faced with daily decisions and dilemmas, many still ask themselves the question, ‘What Would Cokie Do?’ In this loving tribute, Cokie’s husband of 53 years and bestselling-coauthor Steve Roberts reflects not only on her many accomplishments, but on how she lived each day with a devotion to helping others. For Steve, Cokie’s private life was as significant

and inspirational as her public one. Her commitment to celebrating and supporting other women was evident in everything she did, and her generosity and passion drove her personal and professional endeavors. In Cokie, he has a simple goal: “To tell stories. Some will make you cheer or laugh or cry. And some, I hope, will inspire you to be more like Cokie, to be a good person, to lead a good life.”

women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an

acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Katherine Johnson was young, women weren't expected to go into the math and science fields. Johnson loved math, but she never thought she could be a mathematician. After studying math in school and teaching for a few years, she learned that the organization that would later become NASA was hiring women to complete mathematical equations. As an African American woman, Johnson had to work hard to earn the respect of her coworkers, but they soon came to rely on her brilliant calculations. Her contributions to the US space program helped send astronauts to the moon. Learn how Johnson broke barriers as a female African American mathematician.

### **Environmental Activist**

**Wangari Maathai** Jennifer Swanson 2018-01-01 Have you ever tried to come up with ways to solve a problem in your community? Wangari Maathai worked to solve an environmental crisis and help people at the same time. When Maathai was young, it was unusual for girls in Kenya to go to school, but she was determined to learn more about science and nature. As an adult, she noticed that people were cutting down too many trees. Maathai knew that forest loss was bad for the health of the environment and people. She started the Green Belt Movement, which educated women in rural villages and paid them for every tree they planted. The program helped plant millions of trees and brought money to

the villages. For her environmental and human rights work, Maathai became the first African woman to receive the Nobel Peace Prize. *Automotive News* 2005

**The Year of Magical Thinking** Joan Didion  
2007-02-13 NEW YORK TIMES BESTSELLER • NATIONAL BOOK AWARD WINNER •  
From one of America's iconic writers, a stunning book of electric honesty and passion that explores an intensely personal yet universal

experience: a portrait of a marriage—and a life, in good times and bad—that will speak to anyone who has ever loved a husband or wife or child.

Several days before Christmas 2003, John Gregory Dunne and Joan Didion saw their only daughter, Quintana, fall ill with what seemed at first flu, then pneumonia, then complete septic shock. She was put into an induced coma and placed on life support. Days later—the night before New Year's Eve—the Dunnes were just sitting down to dinner after visiting the hospital when John Gregory Dunne suffered a massive and fatal coronary. In a second, this close, symbiotic partnership of forty years was over. Four weeks later, their daughter pulled through. Two months after that, arriving at LAX, she collapsed and underwent six hours of brain surgery at UCLA Medical Center to relieve a massive hematoma. This powerful book is Didion's attempt to make sense of the "weeks and then months that cut loose any fixed idea I ever had about death,

**Reading the Roots** Michael P. Branch 2004 *Reading the Roots* is an unprecedented anthology of outstanding early writings about American nature--a rich, influential, yet critically underappreciated body of work. Rather than begin with Henry David Thoreau, who is often identified as the progenitor of American nature writing, editor Michael P. Branch instead surveys the long tradition that prefigures and anticipates Thoreau and his literary descendants. The selections in *Reading the Roots* describe a diversity of landscapes, wildlife, and natural phenomena, and their authors represent many different nationalities, cultural affiliations, religious views, and ideological perspectives. The writings gathered here also range widely in terms of subject, rhetorical form, and disciplinary approach--from promotional tracts and European narratives of contact

with Native Americans to examples of scientific theology and romantic nature writing. The volume also includes a critical introduction discussing the cultural, scientific, and literary value of early American nature writing; headnotes that contextualize all authors and selections; and a substantial bibliography of primary and secondary sources in the field. *Reading the Roots* at last makes early American landscapes--and a range of literary responses to them--accessible to scholars, students, and general readers. *Statement of Disbursements of the House* 2006

Passing Nella Larsen  
2020-10-01 Clare Kendry has severed all ties to her past. Elegant, fair-skinned and ambitious, she is married to a white man who is unaware of her African-American heritage. When she renews her acquaintance with her childhood friend Irene, who has not hidden her origins, both women are forced to reassess their marriages, the lies they have told - and to confront the

secret fears they have buried within themselves. Nella Larsen's intense, taut and psychologically nuanced portrayal of lives and identities dangerously colliding established her as a leading writer of America's Harlem Renaissance. *The Quiet Trailblazer* Mary Frances Early 2021-09-15 The Quiet Trailblazer recounts Mary Frances Early's life from her childhood in Atlanta, her growing interest in music, and her awakening to the injustices of racism in the Jim Crow South. Early carefully maps the road to her 1961 decision to apply to the master's program in music education at the University of Georgia, becoming one of only three African American students.

With this personal journey we are privy to her prolonged and difficult admission process; her experiences both troubling and hopeful while on the Athens campus; and her historic graduation in 1962. Early shares fascinating new details of her regular conversations with civil rights icon Dr. Martin Luther King Jr. at Ebenezer Baptist Church in Atlanta. She also recounts her forty-eight years as a music educator in the state of Georgia, the Southeast, and at the national level. She continued to blaze trails within the field and across professional associations. After Early earned her master's and specialist's degrees, she became an acclaimed Atlanta music educator, teaching music at segregated schools and later being promoted to music director of the entire school system. In 1981 Early became the first African American elected president of the Georgia Music Educators Association. After she retired from working in public schools in 1994, Early taught at

Morehouse College and Spelman College and served as chair of the music department at Clark Atlanta University. Early details her welcome reconciliation with UGA, which had failed for decades to publicly recognize its first Black graduate. In 2018 she received the President's Medal, and her portrait is one of only two women's to hang in the Administration Building. Most recently, Early was honored by the naming of the College of Education in her honor.

Washington Ron Chernow  
2010-10-05 From the author of Alexander Hamilton, the New York Times bestselling biography that inspired the musical, comes a gripping portrait of the first president of the United States. Winner of the 2011 Pulitzer Prize for Biography "Truly magnificent . . . [a] well-researched, well-written and absolutely definitive biography" —Andrew Roberts, The Wall Street Journal "Until recently, I'd never believed that there could be such a thing as a truly gripping biography of George

Washington . . . Well, I was wrong. I can't recommend it highly enough—as history, as epic, and, not least, as entertainment." —Hendrik Hertzberg, The New Yorker Celebrated biographer Ron Chernow provides a richly nuanced portrait of the father of our nation and the first president of the United States. With a breadth and depth matched by no other one volume biography of George Washington, this crisply paced narrative carries the reader through his adventurous early years, his heroic exploits with the Continental Army during the Revolutionary War, his presiding over the Constitutional Convention, and his magnificent performance as America's first president. In this groundbreaking work, based on massive research, Chernow shatters forever the stereotype of George Washington as a stolid, unemotional figure and brings to vivid life a dashing, passionate man of fiery opinions and many moods. Lin-Manuel Miranda's smash

Broadway musical Hamilton has sparked new interest in the Revolutionary War and the Founding Fathers. In addition to Alexander Hamilton, the production also features George Washington, Thomas Jefferson, James Madison, Aaron Burr, Lafayette, and many more.

world is everyone's business. "The gold standard on how to use business as a platform for change at this urgent time."—Ray Dalio, founder of Bridgewater Associates and author of *Principles: Life and Work* What's the secret to business growth and innovation and a purpose-driven career in a world that is becoming vastly more complicated by the day? According to Marc Benioff, the answer is embracing a culture in which your values permeate everything you do. In *Trailblazer*, Benioff gives readers a rare behind-the-scenes look at the inner workings of one of the world's most admired companies. He reveals how Salesforce's core values—trust, customer success, innovation, and equality—and commitment to giving back have become the company's greatest competitive advantage and the most powerful engine of its success. Because no matter what business you're in, Benioff says, values are the bedrock of a resilient company culture that inspires all employees, at

every level, to do the best work of their lives. Along the way, he shares insights and best practices for anyone who wants to cultivate a company culture positioned to thrive in the face of the inevitable disruption ahead. None of us in the business world can afford to sit on the sidelines and ignore what's going on outside the walls of our workplaces. In the future, profits and progress will no longer be sustainable unless they serve the greater good. Whether you run a company, lead a small team, or have just draped an ID badge around your neck for the first time, *Trailblazer* reveals how anyone can become an agent of change.
