Hitler's War Harry Turtledove 2009-08-04 A stroke of the pen and history is changed. In 1938, British prime minister Neville Chamberlain, determined to avoid war, signed the Munich Accord, ceding part of Czechoslovakia to Hitler. But the following spring, Hitler snatched the rest of that country, and England, after a fatal act of appeasement, was fighting a war for which it was not prepared. Now, in this thrilling alternate history, another scenario is played out: What if Chamberlain had not signed the accord? In this action-packed chronicle of the war that might have been, Harry Turtledove uses dozens of points of view to tell the story: from American marines serving in Japanese-occupied China and ragtag volunteers fighting in the Abraham Lincoln Battalion in Spain to an American woman desperately trying to escape Nazi-occupied territory—and witnessing the war from within the belly of the beast. A tale of powerful leaders and ordinary people, at once brilliantly imaginative and hugely entertaining, Hitler's War captures the beginning of a very different World War II—with a very different fate for our world today. **BONUS:** This edition contains an excerpt from Harry Turtledove's *The War that Came Early: West and East*.

Prince of the North Harry Turtledove 2015-06-09 A great leader rises when forced to defend his troubled lands against an onslaught of monsters in the second book of this remarkable fantasy series featuring Gerin the Fox. Peace in the North has been fragile and tentative in the five

years since the terrible Werenight, when the light of four full moons transformed men into beasts. Now cut off completely from the Elabon Empire, the land is in violent dispute, squabbled over by minor barons hungry for greater power. Gerin the Fox is one of the few who stand firm against the encroaching chaos, but his own life has been violently shaken, first by a heartless betrayal and then by the kidnapping of his young son. Having angered a vengeful deity, he cannot look to the gods for support. Yet it is Gerin to whom the people must turn when an earthquake tears their land open, undoing an ancient warding spell and releasing a host of ravaging beasts from the dark underground. The stunning sequel to *Werenight*, Hugo Award-winning author Harry Turtledove's *Prince of the North* is a magnificent work of fantasy fiction. Rulers of the Darkness Harry Turtledove 2002-03-20 Beginning with Into the Darkness, Darkness Descending, and Through the Darkness, bestselling author Harry Turtledove ("The master of alternative history"- Publishers Weekly) has been telling an epic tale: the story of a world war, comparable to the terrible world wars of our own 20th century, in a world where magic works. Imagine the drama and terror of the Second World War-only the bullets are beams of magical fire, the tanks are great lumbering beasts, and fighters and bombers are dragons raining fire upon their targets. Welcome to the world of the Derlavaian War, a world that is slowly but surely being conquered, mile by bloody mile, by the forces of the Algarvian empire . . . forces whose most terrible battle magics are powered by the slaughter of innocent people, the Kaunians, whom Algarve-like much of the world-holds in disdain. In Rulers of the Darkness, the fourth volume of the series which began with Into the Darkness, the war for the continent of Derlavai builds toward its crescendo as the mages of Kuusamo, aided by their former rivals from Lagoas, work desperately to create a newer form of magic that will change the course of the war. But this is really a story of ordinary people-on all sides of the conflict-forced by fate to rise to their heroic limits . . . or sink to the level of their darker natures. The House of Daniel Harry Turtledove 2016-04-19 From Harry Turtledove, "the Master of Alternate History," comes a tale of minor league baseball set in an alternate Great Depression America full of wild magic Since the Big Bubble popped in 1929, life in the United States hasn't been the same. Hotshot wizards will tell you nothing's really changed, but then again, hotshot wizards aren't looking for honest work in Enid, Oklahoma. No paying jobs at the mill, because zombies will work for nothing. The diner on Main Street is seeing hard times as well, because a lot fewer folks can afford to fly carpets in from miles away. Jack Spivey's just another down-and-out trying to stay alive, doing a little of this and a little of that. Sometimes that means making a few bucks playing ball with the Enid Eagles, against teams from as many as two counties away. And

sometimes it means roughing up rival thugs for Big Stu, the guy who calls the shots in Enid. But one day Jack knocks on the door of the person he's supposed to "deal with"--and realizes that he's not going to do any such thing to the young lady who answers. This means he needs to get out of the reach of Big Stu, who didn't get to where he is by letting defiance go unpunished. Then the House of Daniel comes to town--a brash band of barnstormers who'll take on any team, and whose antics never fail to entertain. Against the odds Jack secures a berth with them. Now they're off to tour an America that's as shot through with magic as it is dead broke. Jack will never be the same--nor will baseball. The Disunited States of America Harry Turtledove 2011-04-26 In Harry Turtledove's The Disunited States of America, Justin's having the worst trip ever. He and his mother are Time Traders, traveling undercover to

different alternate realities of Earth so they can take valuable resources back to their own timeline. In some of these worlds, Germany won World War I or the world has been destroyed by nuclear warfare. Justin and his mother are in an America that never became the United States: each state is like a country, and many of them are at war with each other. Their mission takes them to Virginia, which is on the verge of bloody violence with Ohio. Beckie is from California, and like the rest of her world, unaware that Time Traders exist. The only reason she's in small town Virginia is because her grandmother dragged her there to visit old relatives. Beckie is just as horrified by the violence and racism of the alternate Virginia as Justin is, and the two are drawn to one another. But when full-fledged war breaks out between the States, including a biologically designed plague, will either of them manage to get back home? Forget about home: Will they make it out alive? The Case of the Toxic Spell Dump Harry Turtledove 2013-08-29 David Fisher, an EPA (Environmental Protection Agency) bureaucrat, was not the stuff of which heroes are made. At least he hoped not. All he wanted was a good life with a good wife, and a chance to do his bit for society reviewing magical impact statements (like the one that assesses the effect on local non-life resulting from the introduction of leprechauns into Southern California, for example) and ensuring that various manufacturers of magical devices did not intentionally or otherwise foul the environment with the sorcerous by-products of their trade. Indeed it would be hard to imagine a more regular and down to earth soul than that of David Fisher of the EPA. No hero he! Then one day David received a call

from Washington to investigate a certain Toxic Spell Dump, and suddenly he is up to his neck in skullduggery and magic most foul. Some ancient deity, it seems, is attempting to reopen for business in the L.A. Basin, complete with human sacrifice (open up their hearts and let the sun shine in!) and the destruction of Western Civilization. All that stands in the way is David Fisher - and he's no hero. Until he has to be.

Alpha and Omega Harry Turtledove 2019-07-02 New York Times bestselling author Harry Turtledove reveals a new side of his potent imagination in a gripping speculative novel about the End of Days—and a discovery in the Middle East that turns the world upside down. What would happen if the ancient prophecy of the End of Days came true? It is certainly the last thing Eric Katz, a secular archaeologist from Los Angeles, expects during what should be a routine dig in Jerusalem. But perhaps higher forces have something else in mind when a sign presaging the rising of the Third Temple is located in America, a dirty bomb is detonated in downtown Tel Aviv, and events conspire to place a team of archaeologists in the tunnels deep under the Temple Mount. There, Eric is witness to a discovery of such monumental proportions that nothing will ever be the same again. Harry Turtledove is the master at portraying ordinary people caught up in extraordinary events, and what is more extraordinary than the incontrovertible proof that there truly is a higher force controlling human destiny? But as to what that force desires . . . well, that is the question.

The Military Dimension: Mark II David Drake 1995-02-01 WELCOME TO THE WAR ZONE When they say that war changes a man, they're being euphemistic. War makes a man insane by civilian standards. When the man comes back, he may return to civilian norms again. After a while. I'm not proud of many of the things that happened in Nam. I'm not proud of some of the things I did myself. But the men I served with were, for the most part, doing the best job they could with the cards they'd been dealt.

I'm proud of them, and I'm proud to have been among them. Anybody's got a right to criticize the things that happened. But don't criticize the men who did them unless you've been in their shoes. Ever since I came back, the object of my military fiction has been to put somebody as normal as you, or as I was, into a war zone. And I hope to God neither you nor your son ever has an opportunity to compare my fiction with the real thing. A shorter edition of this book was published under the title *The Military Dimension*. Jaws of Darkness Harry Turtledove 2010-04-01 Harry Turtledove's masterful story of a magical world's cataclysmic war-which began with *Into the Darkness*, *Darkness Descending*, *Through the Darkness*, and *Rulers of the Darkness*-continues in this, the fifth volume of the series: *Jaws of Darkness*. The grand conflict for control of the continent of Derlavai rages on, in a battle with all the drama and terror of the Second World War-only the bullets are beams of magical fire, the tanks and submarines are great lumbering beasts, and the fighters and bombers are dragons raining fire upon their targets. Yet hope may be dawning at last. The terrible onslaught of the conquering forces of Algarve-who power their battle magics with the life energy of their murdered victims-begins to founder as it runs into Habbakuk: a sorcerous ship of ice used by embattled nations of Lagoas and Kuusamo to ferry their deadly dragons across the seas to strike at the very heart of Algarvian power. But though the tide has begun to turn, the conflict is far from over. The widely disdained Kaunians still struggle desperately to escape as the Algarvians kill them by the thousands-for life energy, but also simply for the crime of being Kaunian. And as the deaths of innocent civilians on both sides continue to feed the flames of war, those who have struggled to survive and preserve their freedom have only their passions to see them through. . . . Sentry Peak Harry Turtledove 2000-09-01 THE STRANGEST CIVIL WAR NOVEL YOU EVER READ! When Avram became King of Detina, he declared he intended to liberate the blond serfs from their ties to the land. The northern provinces, where most of the serfs lived, would not accept his lordship. The hot north was a land of broad estates, whose noble overlords took the serfs' labor and gave back next to nothing. Those provinces left Detina, choosing Avram's cousin, Grand Duke Geoffrey, as

their king in his place. Avram said he had inherited all of the kingdom, not just a part. He refused to let Geoffrey rule the north without a challenge. And the southron provinces, full of merchants and smallholders stood solidly behind him. So he sent armies clad in gray against the north. Geoffrey raised his own army, and arrayed his men in blue made from the indigo much raised on northern estates to distinguish them from the southrons. Avram held the larger part of the kingdom, and the wealthier part, too. But Geoffrey's men were bolder soldiers. And the north, taken all in all, had better wizards than the southrons did. The war raged for almost three years, until Avram's General named Guildenstern and his great lieutenant, Doubting George, moved against the northern army under Count Thraxton the Braggart and his commander of unicorn-riders, Ned of the Forest, which held the town of Rising Rock, close by Sentry Peak. . . . The Man with the Iron Heart Harry Turtledove 2008-07-22 What if V-E Day didn't end World War II in Europe? What if, instead, the Allies had to face a potent, even fanatical, postwar Nazi resistance? Such a movement, based in the fabled Alpine Redoubt, was in fact a real threat, ultimately neutralized by Germany's flagging resources and squabbling officials. But had SS Obergruppenführer Reinhard Heydrich, the notorious Man with the Iron Heart, not been assassinated in 1942, fate might have taken a different turn. We might likely have seen a German guerrilla war launched against the conquerors, presaging by more than half a century the protracted conflict with an unrelenting enemy that now engulfs the United States and its allies in Iraq. How might today's clash of troops versus terrorists have played out in 1945? In this imagined world, Nazi forces resort to unconventional warfare, using the quick and dirty tactics of terrorism--booby traps, time bombs, mortar and rocket strikes in the night, assassinations, even kamikaze-style suicide attacks--to overturn what seemed to be a decisive Allied victory. In November 1945, a truck bomb blows up the Nuremberg Palace of Justice, where high-ranking Nazi officials are about to stand trial for war crimes. None of the accused are there when the bomb goes off, but their judges, all of them present and

accounted for, are annihilated. Worse acts of terrorism follow all over Europe. Suddenly the Allies--especially the United States--must battle an invisible enemy and sacrifice countless lives in a long, seemingly pointless, unwinnable conflict. On the home front, patriotism corrodes, political fortunes are made and lost in the face of an antiwar backlash, and a once-proud country wonders how the righteous fight for freedom overseas has collapsed into a hopeless quagmire. At once a novel of thrilling military suspense, intriguing alternate history, and profound insight into contemporary affairs, *The Man with the Iron Heart* is a tour de force by a storyteller of exceptional imaginative power.

Gunpowder Empire Harry Turtledove 2010-04-01 In Harry Turtledove's *Gunpowder Empire*, Jeremy Solter is a teenager growing up in the late 21st century. During the school year, his family lives in Southern California--but during the summer the whole family lives and works on the frontier of the Roman Empire. Not the Roman Empire that fell centuries ago, but a Roman Empire that never fell: a parallel timeline, one of an infinity of possible worlds. For in our timeline, we now have the technology to move among these. Some are uninhabitable; some are ghastly, such as the one where Germany won World War II. But many are full of resources and raw materials that our world can use. So we send traders and businesspeople--but to keep the secret of crosstime traffic to ourselves, these traders are trained, in whole-family groups, to pass as natives. But when Jeremy's mother gets sick--really sick, the kind you can't cure with antibiotics. Both parents duck out through the gateway for a quick visit to the doctor. But while they're gone, the gateways stop working. So do the communications links to their home timeline. The kids are on their own, and things are looking bad. The Lietuvans are invading. The city is besieged. The kids are doing their best to carry on business and act like everything's normal, but there's only so much you can do when cannonballs are crashing through your roof. And in the meantime, the city government has gotten suspicious, and is demanding a *full* report on how their family does business, where they get their superior merchandise, why they want all that wheat ...exactly the questions they don't want to answer. What he learns is essential for the survival of Germany, for he must unite his people against Rome before they become enslaved by the Empire and lose their way of life forever.
